STOCKPORT CREATIVE CAMPUS

In May, we're launching our second cohort of the pioneering Stockport Creative Campus programme. This is an exclusive, fully-funded opportunity for Stockport's creative digital freelancers to unleash the next stage of their business growth.

Delivered from Houldsworth Business & Arts centre, a beautifully restored historic mill in Stockport, this 8-week programme is an exciting opportunity to advance your business in the local ecosystem.

The programme will support 60 early-stage creative digital entrepreneurs, granting direct access to vital resources locally, including networking,

personalised 121 business guidance and a series of masterclasses and interactive workshops.

Our bespoke curriculum recognises the exceptional strengths unique to the entrepreneur community and provides powerful opportunities to learn, collaborate and unleash your business potential right here in Stockport.

TESTIMONIALS

Allison Angel

Stockport Creative Campus
mentor and founder of
Years of Style

"I'm so thankful for the support, knowledge, expertise and connection from this programme. I am seen and championed as an entrepreneur."

"Learning with like-minded individuals means the enthusiasm and passion stays high, and stoked, and it really feels like you are being given every reason to fly! There is some really valuable business support to be had as well. It's a shame it's come to an end."

Chi-chi Ekweozor

Founder, Attendist

"It's not about the space, it's about the network and connections that you can make. I've always said that it's not always about money to be a successful entrepreneur, it's also their network."

Michael Livingstone
Founder, Dust ID

Catherine Makin Khan
Founder, Makin Studios

"It has left me feeling a lot more supported and empowered. A must do programme for those wanting to expand their network and learn a few things along the way."

Joaquin Contreras
Founder, Pandemic Tours

"This was a very valuable personal growth experience. I was able to connect with others, learn from the best and test my business assumptions while fully working in my start-up. I have moved a long way forward since I started this journey."
